ATTENTION!
Handle profile should be 2 mm longer than board height.

## WARNING

SEVROLL does not bear any responsibility for deformation resulting from the application of improper quality of boards (improper storage, improper humidity)

ATTENTION:
Board to mirror contact area should be free from dirt and grease before applying double-sided tape.

FAWORYT II C mirror dimensions

Broken line indicates recommended positioning od double-sided tape

## VICTORIA II C, ALFA II C

Installation method for handle and guiding carriage with \# 18 mm board

- When fitting handle profiles, do not use assembly adhesive
- The handle should be fixed to board with fastening screws $\varnothing 3 \times 13$ on the inner door face

Installation method for handle and guiding carriage with \# 12 mm board + \# 4 mm mirror

If the board or mirror is too loose on the handle profiles, screw the handles to the board using ø $3 \times 10$ screws.

Screw are available from Sevroll-System
