Assembly instructions for electric pull down clothes rail Queen

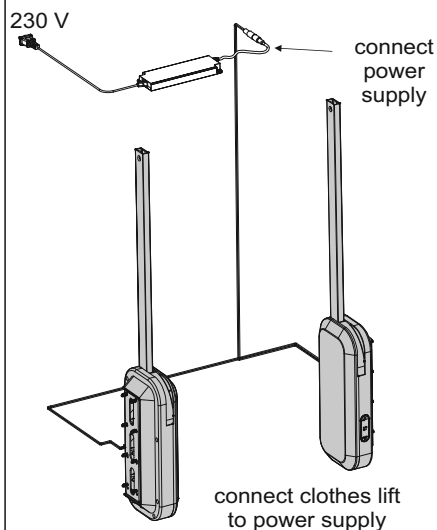

SEVROLLATTENTION: Assembly and disassembly should only be performed **when the device is turned off****Components**

Clothes lift	Width of the opening D	length of the hanging rail Ld	Max. load of clothes lift 15 kg
600 ÷ 800	564 ÷ 764	450 ÷ 650	MAX 15 kg
800 ÷ 1000	764 ÷ 964	650 ÷ 850	
1000 ÷ 1200	964 ÷ 1164	850 ÷ 1050	

2. Fitting strengthening plate to wardrobe sides**1. Wiring installation****Option A: channels on segment sides****Option B: holes in the rear of the wardrobe + covering profile****3. Fitting of clothes lift's arms**

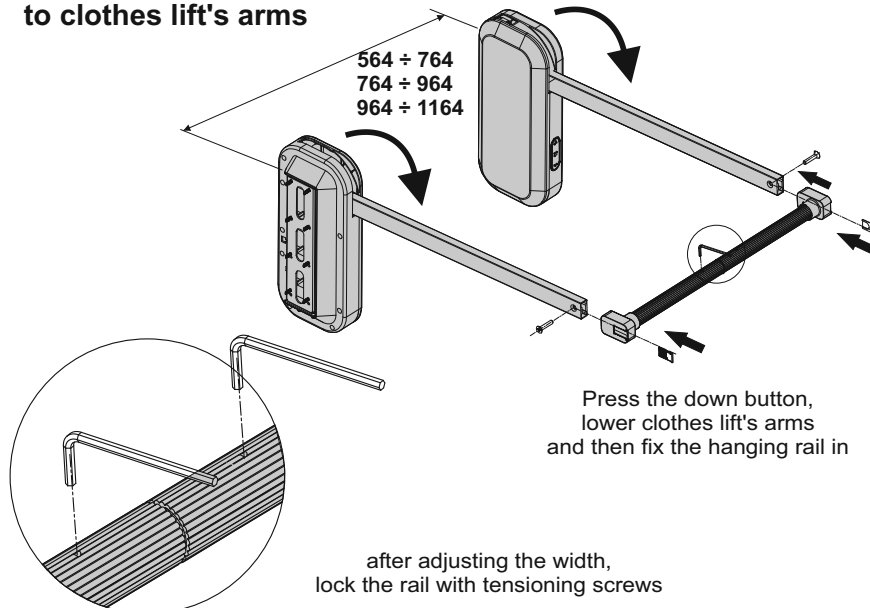

4. Connecting to power supply

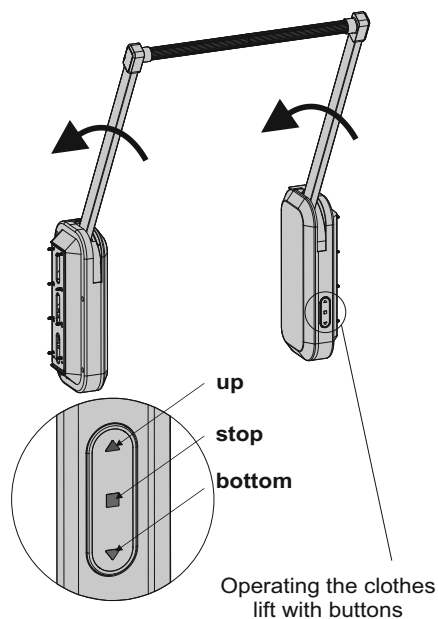

Attention! Ensure both arms are correctly connected.

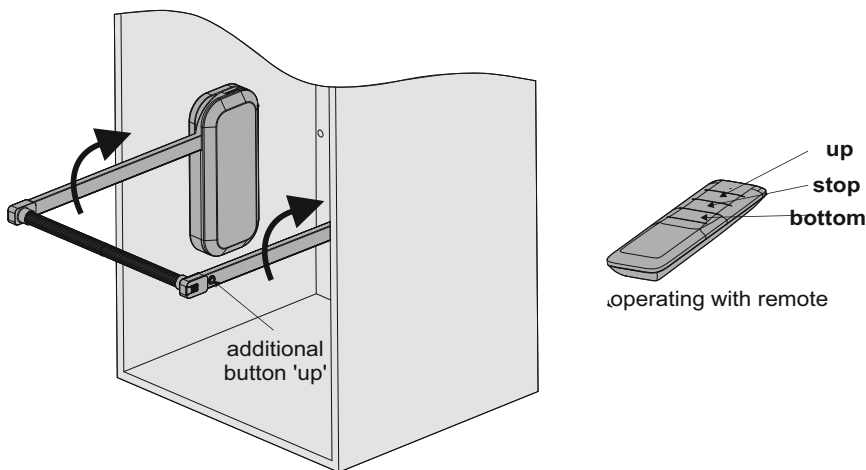

5. Fixing hanging rail to clothes lift's arms

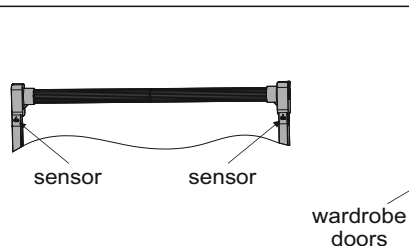

6. Operating with buttons

7. Operating with remote

9. Sensor operation

Attention!
Sensors fitted into device arms block clothes lift's operating abilities if wardrobe doors are closed (clothes lift will not come down)

The Wardrobe lift can only be controlled by buttons, remote control, or voice commands. A power outage will prevent the wardrobe lift from operating. Mechanically lowering the arms may damage the device.

10. Operating with voice commands

Voice commands:
