ATTENTION!
Due to the fact that no plinth is needed in system Eden, attention must be paid to the bottom flange being positioned level to the floor. Additionally, when using furniture slides, they should be placed along the whole length so that the bottom flange and bottom track does not bend.

Installation method for fitting mirror or coloured glass 4 mm

- with horizontal profile

- with handle

Door width	$w = (W + 25 \text{ mm}) : 2$
Mirror width (glass)	$w_m = w - 6 \text{ mm}$
Horizontal profile Eden XL length	$L = w - 12 \text{ mm}$
Strengthening profile length	$S = w - 50 \text{ mm}$

ATTENTION!

Rear mirror / coloured glass surface must be secured with safety backing foil (excluding glass surface glued with mirror adhesive).
The edges of glass must be polished.

ATTENTION

In Eden system with doors taller than 2 m it is possible for the door wing to bow +/- 5 mm

How to cut horizontal profiles
