

COMPONENTS

Opening dimensions

Door leaf dimensions - #18 mm board

Tracks SMART (top/bottom) door height - h	$h = H - 13 \text{ mm}$
Tracks HIDE M. (top/bottom) door wing height - h	$h = H - 10 \text{ mm}$
Board height (1 mm ABS edging) - hp	$hp = h - 2 \text{ mm}$
Door wing width - d	$d = (D + Z) : N$
Board width (1 mm ABS edging) - dp	$dp = d - 2 \text{ mm}$

Number of door wings - N	2	3	4	5
Total overlap - Z	30 mm	60 mm	90 mm	120 mm

Front – 4 wings	
 Door layout	$w = (W + 90) : 4$
 Door layout	$w = (W : 2 + 30) : 2$

UWAGA!

*When cutting the board, you need to include the thickness of ABS edging.
1mm ABS edging was used for our calculation*

ATTENTION!

System SMART can be used in conjunction with any of SEVROLL's handle profiles suitable for 18 mm fillings.

HI-TEC stopper installation

ATTENTION!

Remove protective film from aluminium elements (handles, tracks, connectors, etc.) prior to cutting them to the desired size. Film removal will reveal quality issues (eg. scratches)
