ALUMINIUM SYSTEM FOR UNLIMITED STORAGE SOLUTIONS

LINEA

NEW!

LINEA is an unusually simple and effective system for interiors

It was designed in order to use **free space in the best way possible**: wardrobe interiors, walk-in wardrobes, as free standing shop floor furniture or in any room of a house. LINEA allows you to store objects of various sizes, thanks to **free configuration of shelves and hangers set up**, according to your own needs. System LINEA is **easy to assemble**.

Main advantages of system **LINEA**:

- possibility to adjust the system to any space, even up to 3 m high
- 2 types of main profile fitting (wall and ceiling)
- it allows the maximum use the space, thanks to free configuration of shelves and hangers
- every system element is available individually
- each support is fitted separately, which enables fast change of height for shelves and bars
- timeless look and high quality of aluminium ensure longevity
- all screws are masked by aesthetic caps
- maximum shelf load, 90 cm wide with 18mm board, is 35 kg
