PAX is minimalistic, simplistic and modern

Due to the use of minimalistic profiles PAX gives almost unlimited design possibilities. Despite its apparent delicacy, PAX's frame construction ensures its high rigidity and allows the creation of furniture up to 3000 mm high without losing door rigidity. This is possible thanks to incorporating assembly profile PAX. This system allows you to freely combine various colours of glass as well as veneered materials without visible connections.

BASIC COMPONENTS OF LINE PAX

PRODUCT	NAME	INDEX	COLOUR	LENGTH (mm)
			SILVER	2700
	Handle PAX	04098	RALWHITE	2700
	Handle PAX	04102	SILVER	3000
		04101	RALWHITE	3000
	Upper horizontal profile PAX	04096	SILVER	3000

	opacer prome or	04320	RALWHITE	3000
	Gap filler PAX	20298	SILVER	-
	Gap Inter 1777	20299	RALWHITE	-

The main advantages of line PAX include:

- Lack of visible frames and handles
- Invisible sliding doors mechanism
- Possibility of combining various colours of glass and various materials without a visible connector
- Possibility to use soft-close mechanisms
- Possibility to use a variety of materials mirrors 4 mm: lacobel 4 mm, glass with graphics 4 mm and veneered board 4 mm
- The whole system is available in two colours – silver and white
- Maximum height up to 3000 mm
- that ensure silent and smooth door closing
 Maximum door wing width up to 1100 mm

Line PAX utilises GEMINI 10 tracks, top guides and bottom carriages

PAXXL is elegance at its best

Line Pax XL is extremely simple to use and creates a superb door. The finish of these doors is defined by the delicate profile visible around the outer edge. One of the main advantages of this system is the way 4mm fillings are used with profile PaxXL. It is not necessary to polish the glass edge. You simply construct the doors using PaxXL gasket. Handle PaxXL is available in two lengths of 2.7 and 3 m.

BASIC COMPONENTS OF LINE PAX XL

PRODUCT	NAME	INDEX	COLOUR	LENGTH (mm)
		04414	SILVER	2700
	Handle PAX XL	04416	RALWHITE	2700
		04415	SILVER	3000
		04417	RALWHITE	3000

ST.		04420	RALWHITE	3000
0	Lower horizontal profile PAX XL	04419	SILVER	3000
		04418	RALWHITE	3000
	Strengthening profile	04318	SILVER	3000
	Gasket for frame type II	20167	-	Running M

The main advantages of line PAXXL include:

- Solid frame door construction
- Minimalist design, glass covers most of the profile, leaving only a 6 mm visible aluminium edge
- Easy to use with glass, mirror or lacobel using our gasket (no adhesives needed)
- Utilises Sevroll's ball-bearing top guides and bottom carriages

- Chose between two lower tracks: **GEMINI or ELEGANT**
- Soft-closers can be easily added
- Available in two colours: silver and white
- Can be used in both: free-standing and made-to-measure furniture
- Maximum weight of one door is up to 50 kg

Line PAX XL utilises GEMINI 10 tracks, top guides and bottom carriages
